

The need to improve our Customer Service by ensuring the prompt availability of our products while respecting the company KPIs, makes demand analysis increasingly important. An accurate demand planning can lead our Supply Chain and Operations Team to deliver on required volumes and dates.

To strengthen its organization, Carlo Gavazzi Automation SpA is looking for a Demand Planner to understand and analyse the demand from the European market and transfer it into a consolidated demand plan that optimizes the inventory levels and customer delivery performances.

## **Demand Planner**

**Ref. DP\_IT\_2307**

### **Responsibilities**

- Define and manage product demand plans with reference to the internal KPIs
- Analyse historical trends and future demand data
- Develop and evaluate forecast models on a monthly basis to enhance accuracy
- Monitor actual demand vs. forecast values to identify and address any discrepancies
- Create and manage reports for demand planning to provide visibility into key metrics
- Cooperate with the Purchasing Dept. to guarantee the right safety stock levels
- Build and maintain relationships with the key stakeholders in the European Sales Companies to understand the demand forecast and receive specific information from the market
- Cooperate with the Logistics Manager to analyse and classify products and develop inventory strategies
- Work together with planners from different regions to develop a consolidated forecast

### **Education, skills and attitudes**

- Minimum 5 years of experience as a demand and supply planner, preferably in the electronics and components industry
- Proficiency in MS Office, with advanced skills in Excel, and experience working with ERP systems (IFS knowledge preferred)
- Bachelor's degree in management engineering or economics-statistics
- Strong competence in statistical analysis, forecasting techniques, and planning methods
- Exceptional analytical and problem-solving skills to interpret complex data and provide actionable insights
- Ability to thrive in a fast-paced environment, handle pressure, and adapt to changing priorities
- Excellent communication skills to collaborate effectively with cross-functional teams and stakeholders
- Fluent in English, both written and verbal
- Workplace based in Lainate (MI) - Italy
