

ST-04 - Sensor tester

Sensors

ST-04

Sensor tester

The ST-04 is a portable tester designed for use with DC 3 wires and 4 wires sensors.

Ideal for professionals in installation and maintenance, the ST-04 provides comprehensive testing capabilities across a range of sensor types.

Thanks to its integrated targets, the device can test inductive, capacitive, photoelectric and magnetic sensors, offering flexibility for a wide variety of applications.

Powered by two 9V batteries or via USB Type-C, ST-04 can test up to two 3 wires sensors simultaneously, enabling technicians to streamline their testing process.

Diagnostics at finger tip

Compact design

Measuring only 13 x 5 x 3 cm, makes it an ideal accessory for maintenance and installation service in industrial automation.

Quick sensor wiring

The spring terminal mechanism eliminates the need for screwdriver or other tools, allowing for fast and efficient connection.

NPN/PNP touch selector

The tester is equipped with an intuitive NPN/PNP touch selector, allowing users to quickly and easily choose between the two configurations. This feature simplifies the process of working with different types of sensors, making it especially useful for who work with a variety of sensor types.

Immediate test result

ST-04 provides instant feedback with its built-in buzzer and LED indicator, ensuring that you can quickly assess the status of your sensors.

Battery reverse protection

The tester is equipped with a battery reverse protection to prevents damage in case the battery is installed incorrectly.

Automatic switch-off

To enhance energy efficiency and prolong the device's battery life, the tester features an automatic switch-off function after 5 minutes of inactivity.
