

Business Development Manager - Switches

Ref. BDMS_ZH_2407

Location: Shanghai, China

CARLO GAVAZZI

Overview

Carlo Gavazzi is a recognized global leader specializing in the design, manufacturing, and marketing of products and networked solutions for the Industrial Automation and Building Automation industries. It includes multiple technologies for connected Sensors, Relays and Electrical Metering.

This role is responsible for driving new **business development for our Switches product line** under the guidance of the General Manager and Sales Managers in China as well as international Product Line Managers and ensuring growth and development of existing and new OEMs.

Key tasks and responsibilities

- Responsible for the strategy and sales development of targeted markets defined by Carlo Gavazzi Automation “Strategic Industries” – priority on **HVAC, F&B, Plastic and Rubber, Semiconductors**.
- Ensure first-rate internal technical support capable of fully assisting Chinese customers and our local sales team, both remote and on-site. Visit our customers frequently in close cooperation with the sales team.
- Identify customer pain points and offer creative solutions to meet their technical and commercial requirements.
- Act as proactive link between our sales team, factory R&D and international product management, and as responsible agent of the International Product Management on the ground in China.
- Analyze trends in the industry and markets, and competitive activities in China, in a proactive fashion.
- Prospect at key trade shows and digital events. Participate in conferences to obtain potential clients and assess the need for future participation in these events and associations.
- Ensure billing and booking goals for Switches product line is met or exceeded.
- Develop the marketing and sales plan for Switches product line.
- Align the strategy with that of the Group in the medium and long term to achieve the growth objective.
- In cooperation with the International Product Managers, contribute to the product development strategy by communicating on market expectations. Responsible for New Product Integration locally (training, applications, product positioning, leads, etc.).

Collaboration

- Interface with the company global operations and product marketing teams and be an influencer of the company strategic product roadmap.
- Ensure regular reporting and generate a timely response to adapt to unexpected adverse conditions in the region.
- Participate in industry associations involving technology, channel, market verticals, and industry standards when strategic for the development of the regional business.

Requirements
