

Press Release

INAUGURATION OF CARLO GAVAZZI'S NEW PRODUCTION FACILITY IN KUNSHAN - CHINA

Opening Ceremony held at our new premises in Kunshan on November 1, 2024

Lainate, November 2024 - Carlo Gavazzi is excited to announce the opening of its new production facility in Kunshan, marking a significant milestone in its more than two decades of operations in China.

In partnership with the Kunshan Economic and Technological Development Zone (KETD), this new site, which is 50% larger than the previous one, underscores our commitment to growth and innovation.

Designed specifically with the Chinese market in mind, the new facility will also serve global customers and manufacture products targeted at the following strategic industries:

- Sensors for applications in agriculture, conveyors, mobile equipment, and access control.
- Solid-state relays and soft starters for markets such as plastics machinery, food and beverage, semiconductors, and HVAC.
- Energy meters and monitoring relays for EV charging stations, building efficiency, energy storage systems, and distributed energy resources.

The new site will also function as a center of excellence for research and development, featuring a team of dedicated engineers focused on developing tailored solutions and integral to Carlo Gavazzi's mission of delivering innovative products.

With confidence in the future, Carlo Gavazzi is poised to deepen its presence in China, fostering lasting relationships and making a positive impact in the market.

We would like to thank all those who participated in the official ceremony held on November 1, especially the Mayor of Kunshan, representatives from the KETD, the Swiss Consul in China, the Swiss Chamber of Commerce in Shanghai, the Board of Directors of Carlo Gavazzi Group, as well as our employees and customers.
