

## Press Release

### **ISO 45001:2018 CERTIFICATION FOR OUR PRODUCTION SITE IN BELLUNO – ITALY**

*Carlo Gavazzi is increasingly committed to Health and Safety.*

Lainate, May 2024 - After the ISO 9001 and ISO 14001 certifications, we are pleased to confirm the achievement of the **ISO 45001: 2018** certification objective for our production plant in Belluno, Italy.

ISO 45001 is an International Organization for Standardization (ISO) standard for management systems of occupational health and safety (OHS), published in March 2018. The goal of ISO 45001 is the reduction of occupational injuries and diseases, including promoting and protecting physical and mental health.

This certification is a multi-step process that takes about 1 year to achieve.

The process typically involves familiarization with standards, documenting processes, audits and assessments with follow-up, plus employee training. The certification process was done by MS CERT/EQA, one of the most reputable companies for ISO certifications.

It is an extremely important step, which confirms our commitment to protecting health and safety in the workplace, and that we take the safe and sustainable manufacturing of quality products seriously.

This certificate is available on the website under the section
